

Mobile Banking has a new look effective Thursday, April 21, 2016 when we launched the First Southern Bank custom mobile application.

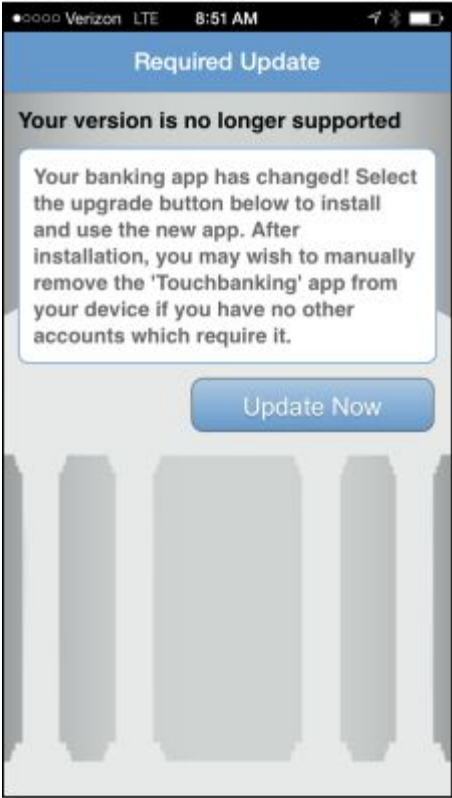

If you utilize the mobile banking application, the images featured directly below with the wording “Touch Banking” are the images you are currently seeing.

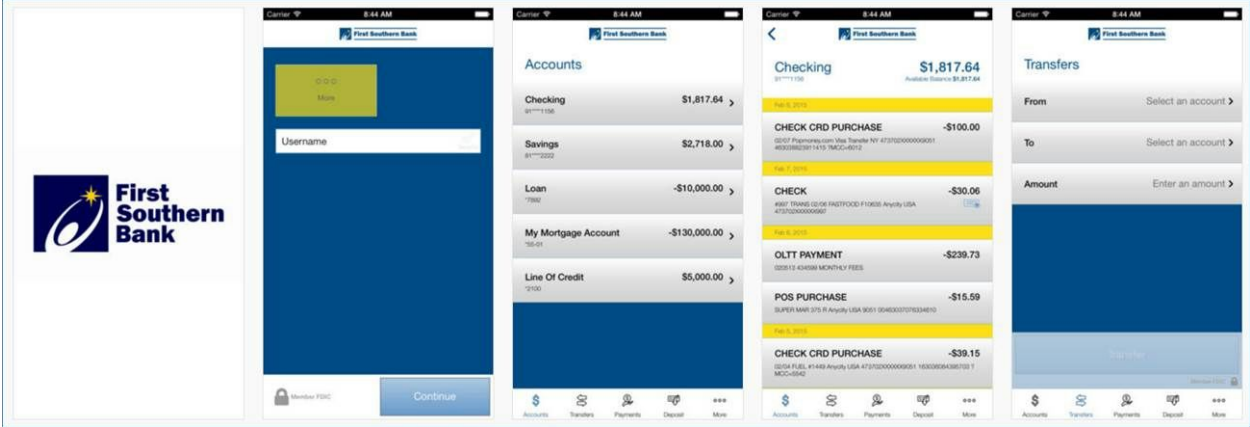

Effective Thursday, April 21, 2016 First Southern Bank now offers our custom mobile application which will feature our First Southern Bank logo man. Images can vary slightly, depending if you are using an Apple or Android application.

Upon clicking on your current “Touch Banking” application you will see the following message, along with instructions to update the mobile application now and the recommendation to uninstall the prior “Touch Banking” application. You will be asked to log into your mobile banking platform by entering your username, password and answering a security question. After the username, password and security answer are provided, you will now be asked to install the custom First Southern Bank mobile application.

The image featured below is an example of what your new mobile banking platform will look like provided by your custom First Southern Bank application.

We hope you enjoy our First Southern Bank custom mobile application. If you have any questions, please do not hesitate to contact a personal banker at 618-997-4341 or 618-549-3621.
